SEFFIN TOM MATHEW

Full Stack Developer | AI Solutions Engineer

Notice Period: Immediate Joiner (Available Immediately)

Kochi, Trivandrum, Chennai, India | +91 9384605370 | seffintommathew@gmail.com

Portfolio | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with 2+ years of hands-on experience specializing in **.NET (C#, ASP.NET Core)**, **Java (Spring Boot)**, **Python**, and modern web frameworks (React, Next.js). Currently working at **New Life Computer Institute (NLCI)** assisting a Senior Software Engineer in developing digital translation tools, AI-powered language applications, and scripture data pipelines for regional and minority language communities across India. Proven track record of engineering scalable RESTful APIs, microservices, and AI-powered applications utilizing Prompt Engineering, RAG, and LLM integrations. **Available to join immediately (0-Day Notice Period).**

TECHNICAL SKILLS

Languages: C#, Java, Python, JavaScript (ES6+), TypeScript, SQL, HTML5, CSS3

Backend & Frameworks: ASP.NET Core, .NET Core, Spring Boot, FastAPI, Flask, RESTful APIs, Microservices

Frontend: Next.js, React, Angular, Tailwind CSS, SvelteKit

AI & LLM Integration: Prompt Engineering, Context Prompting, Retrieval-Augmented Generation (RAG), Gemini AI

Databases & Cloud: MySQL, SQL Server, MongoDB Atlas, PostgreSQL, Turso DB, Vector Search

Tools & Practices: Git, GitHub, Postman, JWT Authentication, OAuth, Agile/Scrum, CI/CD, QA Testing

PROFESSIONAL EXPERIENCE

New Life Computer Institute (NLCI) — Bengaluru / Remote, India

Software Development Assistant (Assisting Senior Software Engineer) — Oct 2025 – Present

- Assist a Senior Software Engineer in architecting, maintaining, and enhancing digital translation applications and language technologies for minority, tribal, and regional language groups across India.
- Develop and optimize backend RESTful APIs, scripture data processing pipelines, and resource import/export workflows handling diverse formats (USFM, XML, JSON).
- Integrate AI and LLM workflows (Retrieval-Augmented Generation, Gemini AI, Vector Search) for automated translation draft assistance and glossary consistency verification.
- Perform database management (PostgreSQL / MongoDB), automated testing, bug fixes, and code reviews to ensure high reliability across multilingual digital platforms.

Independent Contractor — Remote

Prompt Engineer & AI Solutions Consultant — 2025 – Present

- Design and optimize complex prompts using Context Prompting, Few-Shot prompting, and Chain-of-Thought techniques to improve LLM accuracy, structure, and output consistency.
- Develop prompt templates, evaluation benchmarks, and automated pipelines for data extraction, document summarization, and reasoning tasks.

Twinstep Solutions — Chennai, India

Full Stack Developer — Oct 2024 – Oct 2025

- Engineered enterprise-grade web services and Windows desktop applications (.NET Core / C#) for industrial automation and data logging.
- Implemented secure RESTful APIs with JWT authentication, role-based access control (RBAC), and data encryption.
- Optimized complex MySQL database queries and indexing strategies, successfully reducing API response times by 35%.
- Collaborated with QA teams and conducted peer code reviews to ensure robust software quality, security, and maintainability.

HiDreamz Solutions — Kottayam, India

Junior Software Developer — Oct 2023 – Sep 2024

- Developed and deployed full-stack web applications utilizing Python Flask, MySQL, and responsive HTML/CSS/JavaScript frontends.
- Implemented RESTful endpoints for CRUD operations and performed bug fixes, database optimizations, and client feature enhancements.

KEY PROJECTS

Logos Bible Study Chatbot (Vachan Study) | *Next.js, FastAPI, MongoDB Atlas, Gemini AI, Vector Search*

- Developed a multilingual AI study assistant utilizing Retrieval-Augmented Generation (RAG) and Gemini LLM.
- Implemented Hybrid Search combining MongoDB Atlas Vector Search with BM25 keyword matching and Cross-Encoder re-ranking.
- Engineered real-time conversational streaming using Server-Sent Events (SSE), Speech-to-Text (STT), and Text-to-Speech (TTS).

Gundert Translation Editor | *Next.js 16, React 19, PostgreSQL, Drizzle ORM, Gemini AI*

- Built an AI-assisted collaborative translation platform with multi-stage approval pipelines (Draft, Review, Approve).
- Integrated Gemini AI for automated translation drafting, glossary consistency validation, and multi-format resource import/export (XML, JSON, USFM).

Scrummer - Developer Time Tracking Platform | *SvelteKit, TypeScript, Turso DB, GitHub API*

- Architected a cloud-native developer tracking system with real-time GitHub issue synchronization and webhook triggers.
- Implemented secure multi-provider authentication (JWT, Google OAuth, GitHub Device Flow) with serverless persistence on Turso.

Production Data Visualization System | *ASP.NET Core, C#, MySQL, Industrial PLC*

- Built a real-time telemetry and production visualization dashboard integrating external PLC machine data sources with automated reporting.

School Management System | *Java, Spring Boot, Angular, MySQL, Spring Security*

- Implemented role-based access control (RBAC) and administrative management portals using Spring Security and JWT.

EDUCATION

Bachelor of Engineering in Computer Science and Engineering 2017 – 2021
Anna University CGPA: 7.56
Higher Secondary (Class XII) | BMM English Medium Senior Secondary School (CBSE) 2016 – 2017
Secondary School (Class X) | Vimalambika School (CBSE) 2014 – 2015

CERTIFICATIONS

- **.NET Full Stack Development** – Accord Info Matrix
- **Java Full Stack Development** – Inet Infotech
- **Angular Certification** – Accord Info Matrix
